

## “Convergence Without The Congestion”

Take a few minutes to stop by the Rathsburg offices in Novi on Thursday, July 27th, to check out our new Technology Center. It's loaded with state of the art development tools that can help you and your engineers get your module solutions designed and into production quicker and easier than ever before. There will be plenty of application engineering assistance on hand to answer any questions you might have concerning our state

of the art silicon solutions. You can meet and discuss industry trends with the Business Managers of these suppliers as well. Development systems, samples and literature will be

available to take home with you. You can also enjoy some of that world renown Rathsburg hospitality—stay awhile and have some good food, a cold beer or a nice glass of wine, and you may even be lucky enough to take home a very special door prize.

World Class Products and Solutions from Best in Class components suppliers will be on display and demonstrated for your review and consideration.

Rathsburg Associates, Inc.  
41100 Bridge Street  
Novi, MI 48375  
East of Meadowbrook  
North of 11 Mile Road

# John M. Rathsburg Technology Center Gala Grand Opening

## Technical Seminars & Open House Event

Rathsburg Associates cordially invites you to join us in celebrating the grand opening of our new John M. Rathsburg Technology Center on Thursday, July 27, 2006. We have planned a half day of technical seminars from the leading electronic integrated circuit and silicon sensor suppliers to the automotive module business as well as some very special social events.

Please plan to join us for any portion or all of this gala opening day's events which will run from 1:00 p.m. to 9:00 p.m.. Just RSVP and let us know that you are coming with the information provided in the lower right hand corner of this page.

Some very nice Free Prizes  
will be given away!

Technical Seminars Presented By The Best In The Business

### Founding Members Seminar Series

The four Founding Members of our Technology Center will be presenting technical overview sessions on their state of the art silicon solutions for the most demanding automotive applications.

Please come in and join us for one  
or all of these seminars.
